PROFESSIONAL EXPERIENCE

FRONT-END DEVELOPER

FutureLabs, Ikot Ekpene
September 2021 – Present

- Joined as a trainee and was retained as a front-end developer after completing the training program.
- Developed and maintained responsive websites and web applications using **HTML, CSS, JavaScript, TypeScript, React.js, and Next.js**.
- Translated design requirements into responsive and user-friendly web interfaces across desktop, tablet, and mobile devices.
- Built reusable UI components while maintaining consistent spacing, alignment, typography, and visual hierarchy.
- Troubleshot and resolved layout, responsiveness, browser compatibility, and JavaScript functionality issues.
- Implemented interactive web elements and user interface behaviors using JavaScript.
- Integrated frontend applications with backend services and RESTful APIs.
- Performed testing and debugging to identify and resolve application issues.
- Optimized frontend performance, responsiveness, and overall user experience.
- Worked with visual assets and branding requirements to maintain consistent website presentation.
- Used **Git and GitHub** for version control, collaboration, branching, and code management.

FRONT-END DEVELOPER (VOLUNTEER PROJECT)

Helm Technology Solutions
April 2025 – April 2026

- Developed responsive and interactive web interfaces using modern JavaScript technologies.
- Implemented layouts from design requirements with attention to spacing, alignment, typography, and responsive behavior.
- Integrated RESTful APIs and handled loading, success, empty, and error states.
- Debugged frontend, layout, API, and browser-related issues.
- Improved website responsiveness and performance across different devices.
- Developed reusable UI components to improve consistency and maintainability.
- Collaborated with team members throughout development, testing, debugging, and feature delivery.

FRONT-END DEVELOPER (REMOTE CONTRACT)

Eckondo Publishing Series
December 2025 – January 2026

- Designed and developed responsive websites for published books and author content.
- Translated branding and design requirements into functional web interfaces.
- Created responsive layouts for book information, author profiles, publication details, and purchase links.
- Implemented interactive website elements using modern frontend technologies.
- Optimized websites for desktop, tablet, and mobile devices.
- Optimized frontend assets and images to improve website performance.
- Worked with the publishing team to translate business and branding requirements into functional web experiences.
